

ENVIRONMENTAL POLICY

Southridge projects is committed to the principles of environmental sustainability including prevention of pollution and protection of the environment.

We have committed our business to conduct all of its operations in an environmentally responsible manner.

We have a transparent and highly accountable approach to our Environmental performance and this Policy and other relevant data is available to the public and other stakeholders.

Our commitment to the Environment will be achieved as follows:

- We will contribute in a meaningful and beneficial way to the environment in which we operate to ensure sustainability.
- We will achieve continual improvement, where, as Southridge projects grows in experience, and our environmental management system develops, procedures, programmes and technologies will be used to further improve our environmental performance.
- We are committed to compliance with applicable legal requirements and with other requirements that are applicable to the environmental aspects of our operations.
- We regularly review our environmental performance to ensure that it is current and relevant to our business and the needs of our customers

This policy provides the framework for the setting and reviewing of our environmental objectives and targets and is communicated to all persons working for or on behalf of our company.

Trent Horan
Director
